MAINTENANCE

- Parking lot sweeping
- Post winter sand clean-up
- Special event clean-up

**DAILY • WEEKLY • MONTHLY
QUARTERLY • ON-CALL**

Why worry about your parking area when you don't have to? Let Regal Maintenance worry about your parking lot. We understand the importance of a clean, sanitary, presentable parking lot for your customers. With this always in mind, you can rest easy knowing that Regal Maintenance is getting the job done right.

Why Keep Parking Areas Clean?

- A business' outside parking area is where customers derive their "first impression". Keeping the parking area clean is the best chance a business has to make sure the first impression will be a good one.
- Even the most beautiful of landscaping is offset by a parking area which is debris-cluttered. If a parking area is littered, people may hesitate due to the appearance of possible tire damage.
- When a parking area is clean to begin with, shoppers are more careful to not throw trash out of their cars. Sand, dirt and other trash are abrasive, and will shorten the useful life of pavement and striping.
- Keeping litter picked up reduces the chances of slip-and-fall injuries.
- The way the outside area looks projects the image you want you customers to see.

Experience the REGAL CLEAN!

We power blow the curblines, edges and corners.

We pick up cigarette butts and debris from mulch beds.

We get the job done – **Your satisfaction is guaranteed!**
